

Instructions TABLET SENSE

The installation must be done by a qualified electrician who follows these instructions scrupulously. Only qualified personnel should perform maintenance operations on the product. Ensure the rated voltage of the device is compatible with the power supply voltage. Use a supply cable in conformity with the requirements of the low voltage installations standards. The product should not be altered. Any alteration can make the product hazardous and voids the guarantee.

I. Specifications

Power Sourcing	220-240 V/AC
Class	I
Power Frequency	50/60Hz
IP	IP65
Max. Watts	10W 30W
Colour temperature	4200K
Mounting	Wall surface
Application	Indoor/Outdoor
